Professional Experience

EduNextG India LLP — Product-Based Company (Web & Mobile)
Web & App Developer Intern — *Aug 2026 – Present*

- Contributing to a product suite spanning an ERP management system, payment gateway, and delivery logistics platform across web and mobile.
- Building React Native mobile modules using Expo Go — attendance tracking, employee dashboards, and profile management.
- Developing full-stack web features with React.js and Node.js, ensuring seamless API integration between frontend and backend.

Oasis Infobyte — Remote Internship
Web Development & Designing Intern — *Aug 2026 – Sep 2026*

- Built **PizzaHub**, a production-ready full-stack pizza delivery app (React.js, Node.js, Express.js, MongoDB) — oibsip-lovat.vercel.app
- Implemented user authentication, cart management, and order placement with a fully responsive UI.

Employability.life — Federation University Australia — Remote
XPMC / XPro Intern — DevOps & Cloud Computing — *Nov 2025 – Jan 2026*

- Built industry projects on DevOps pipelines and cloud infrastructure; earned **Azure DevOps Initiatives** certification (Feb 2026).
- Collaborated with an international team to deliver cloud-native solutions using Azure DevOps tools.

ZeroDay Alliance — Community
Content Writer — Cybersecurity — *2025 – 2026*

- Authored technical cybersecurity content, translating complex security concepts for a developer audience.

Projects

Memora — Collaborative Memory Journal App — *React Native, Expo, Node.js, MongoDB, Cloudinary*
Live: expo.dev/Memora GitHub: github.com/nilanjan07d/memora

- Cross-platform mobile app for invite-only group journeys — photo uploads to Cloudinary, memory entries, and shared timelines.
- Implemented design token system with responsive `scale()` helper; resolved a critical production APK bug via dynamic API URL resolution using `expo-secure-store`.

RakshaPath — Travel Safety Chatbot — *React.js, AI / NLP Integration*
Live: rakshapath.vercel.app GitHub: github.com/nilanjan07d/rakshapath

- Built for **Smart India Hackathon 2025** — provides proactive safety alerts, route risk assessments, and real-time NLP-based query answering.

PulseLink — Real-Time Healthcare Assistant — *React.js, Node.js, MongoDB (MERN)*
GitHub: github.com/nilanjan07d

- Led a 4-person team at **GDG Solution Challenge** — architected a real-time local health-centre finder using the MERN stack.

CodeSense — AI Code Review Assistant — *React.js, LLM Integration*
Live: codesense-five.vercel.app GitHub: github.com/nilanjan07d/codesense

- AI-powered tool that analyses code snippets or repository context and returns structured, actionable improvement suggestions via large language models.

Echo — Music Streaming Web App — *React.js, Tailwind CSS*
Live: echo-sooty-nine.vercel.app GitHub: github.com/nilanjan07d/echo

- Responsive music streaming frontend with playlist browsing, artist search, and an immersive UI/UX showcasing modern frontend development practices.

EcoXchange — Sustainable Waste E-Commerce Platform — *React.js, Node.js, MongoDB*
GitHub: github.com/nilanjan07d

- Full-stack e-commerce platform for sustainable waste management built at **Hack 4 Bengal 2025** — circular economy model with product listings and transaction flows.
