PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience in full-stack web and mobile application development using React, React Native, Node.js, Express.js, MongoDB, and TypeScript. Passionate about building scalable software, AI-powered applications, and intuitive user experiences. Experienced in developing production-ready projects involving authentication, REST APIs, cloud media storage, and collaborative development. Seeking Software Development Engineer (SDE) or Full-Stack Developer opportunities.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Sister Nivedita University, Kolkata, West Bengal

Expected Graduation: 2027

EXPERIENCE & PROJECTS

The following projects demonstrate Full-Stack Development and AI Integration skills.

PulseLink (Healthcare Assistant Application)GDG Solution Challenge

Led a 4-person development team in the creation of a real-time healthcare assistant platform using the MERN stack (React.js, Node.js, MongoDB).

Architected and implemented a real-time local health center feature.

RakshaPath Chatbot (Travel Safety Assistance)Smart India Hackathon (SIH) 2025

Developed a travel safety assistance chatbot utilizing React.js and AI integration to provide proactive safety features.

EcoXchange (Web-based E-commerce Platform)Hack 4 Bengal

Created a full-stack e-commerce platform focused on sustainable waste management and recycling.

Managed product inventory and user transaction flows for waste materials, promoting a circular economy model. Platform for efficient resource listing and user interaction.

XPMC/XPro Program

Completed internship at employability.life in collaboration with Federation University Australia building projects using DevOps and Cloud Computing.

Codesense

An AI-Powered Code Review Assistant that helps developers understand, analyze, and improve their codebases using AI.

Memora — AI-Powered Travel Journal Mobile Application

Developed a full-stack cross-platform travel journal application enabling users to create journeys, capture memories, upload photos, and collaborate with friends.

TECHNICAL SKILLS

- Programming JavaScript (ES6+), TypeScript, C++, Python
- Web Development React.js, React Native Node.js, Express.js, Expo, REST APIs
- Databases MongoDB, MySQL, Cloudinary
- Cloud/DevOps Cloud Computing (AWS/Azure concepts), Git, GitHub
- Core CS Data Structures & Algorithms (DSA), System Design, Cybersecurity Fundamentals

LANGUAGES

- English (Professional Working Proficiency)
- Bengali (Native Proficiency)
- Hindi (Professional Working Proficiency)
- Spanish (Basic Proficiency)

INTERESTS Open-Source Contribution, Machine Learning & AI Application, Technical Blogging
